Site :
www.amesys.fr

Total employees : 850

2010 Turnover : 90 M€

Certifications :

- ISO 9001 V2008
- CEFRI
- DATR

ACTIVITIES

- Automation-Supervision-Control/Command
- Critical and Security Systems
- Embedded ruggedized electronics
- Data acquisition systems for Nuclear Reactors (real time, VME, VXI, LXI,...)
- Process monitoring, turning machines with predictive maintenance
- Physics measurement – Signal processing (Analog and digital electronics – Sampling electronics)
- Development of dedicated sensors (TORESUPRA Magnetic Field measurements)
- Sensor and measure equipment nuclearization/hardening
- Radioprotection centralizers and upgrading of measuring and nuclear count units.
- Development of nuclear measurement system for waste and effluent characterizing.
- Test benches and nuclear material testing
- Manufacturing and non-destructive- control tools for fuel elements
- Nuclear material conditioning and processing chains (Process engineering)
- Harsh environment robotics
- Embedded control-command / Remote control / Data and video wireless transmission
