

AMESYS

655, avenue Galilée
BP 20 140
13794 AIX EN PROVENCE
Cedex 03 - FRANCE

Christian CHORDI
Sales Director
Energy & Industry

Tél : +33-4 42 24 65 16
Fax : +33-4 42 24 67 67

Email :
c.chordi@amesys.fr

Site :
www.amesys.fr

Total employees : 750

2012 Turnover : 96 M€

Certifications :

- ISO 9001 V2008
- CEFRI
- DATR

ACTIVITIES

- Automation-Supervision-Control/Command
- Critical and Security Systems
- Embedded ruggedized electronic
- Data acquisition systems for Nuclear Reactors (real time, VME, VXI, LXI,...)
- Process monitoring and predictive maintenance for rotating machines and turbines
- Physics measurement – Signal processing (Analog and digital electronic – Sampling electronic)
- Development of dedicated sensors (TORESUPRA Magnetic Field measurements)
- Nuclearization and hardening of Sensor and measurement equipment
- Radiation Monitoring Systems and upgrading of measuring and nuclear count units.
- Development of nuclear measurement system for waste and effluent characterizing.
- Test benches and nuclear material testing
- Manufacturing and non-destructive-control tools for fuel elements
- Nuclear material conditioning and processing chains (Process engineering)
- Robotics for Harsh environment
- Embedded control-command / Remote control / Data and video wireless transmission
